DESDE 1956

SINCE . DEPUIS 1956

A MIRALAGO, constituída em 1956, iniciou a sua actividade em Águeda, distrito de Aveiro, com a concepção, produção e comercialização de componentes para a indústria nacional e internacional de motociclismo e ciclismo.

Em 1980 é pioneira em Portugal integrando uma nova área de negócios no seu portfolio, os equipamentos de fitness.

Mais recentemente soluções de bike sharing, direccionadas ao sector da mobilidade sustentável suave e o investimento numa unidade de produção de selins, reforçam a posição detida na área do ciclismo.

A estratégia da organização é sustentada essencialmente em políticas de i&D e criatividade, qualidade dos processos e ferramentas de gestão, formação contínua dos seus recursos humanos e orientação permanente para a satisfação das necessidades dos clientes na base doméstica e internacional.

MIRALAGO, créée en 1956, a initié son activité á Águeda, région d'Aveiro, avec la conception, production et commercialisation de composants pour l'industrie nationale et internationale de motocyclisme et cyclisme.

En 1980, elle est pionnière au Portugal en intégrant un nouveau créneau d'affaires dans son portefeuille, les équipements de fitness.

Plus récemment, des solutions de bike sharing, dirigées au secteur de la mobilité durable et l'investissement dans une unité de production de selles, renforcent la position détenue sur le créneau du cyclisme.

La stratégie de l'organisation est soutenue essentiellement sur des politiques de i&D et créativité, qualité des processus, outils de gestion, formation continue de ses ressources humaines et orientation permanente pour la satisfaction des nécessités des clients sur le marché nationale et internationale.

MIRALAGO, established in 1956 in Águeda, Aveiro, is since then, active in the conceiving, manufacturing, marketing and selling of motorcycle and bicycle parts, fitness equipment.

In 1980, becomes the Portuguese pioneer in the fitness equipment sector and recently developed two new business areas, bike sharing solutions and saddles engineering, following the increasing importance of sustainable mobility.

Our strategy is mainly supported on r&d and creativity policies, quality on management methods and tools, continuous human resources training and permanent customer demand satisfaction on the domestic and international markets.
